Chew Toys For Your Dog

A great chew toy is a necessity if you want your dog to leave your belongings alone because puppies love to chew. They will find something in your home to chew on if they don't have toys of their own. This might even be your most expensive pair of shoes! It is a great idea to provide your dog with a variety of chew toys to choose from.

Many pet stores now let you take your pet in with you. This is a great way to allow you dog to choose their own chew toys. My mom has a dog that choose a squeezable hot dog. My neighbor has a dog who loves his rope chew toy. Each dog will have their own favorite. Consider getting a back up of that particular toy in case your dog chews a hole in it over time.
